

## YOBE STATE NUTRITION PROFILE

# Accelerating the scale of Maternal, Infant, and Young Child Nutrition (MIYCN) in Yobe State

Improving maternal, infant, and young child nutrition (MIYCN) requires concerted efforts by multiple partners seeking to realize a common vision – a world where all women and children benefit from good nutrition. Working towards this goal, Alive & Thrive is supporting the Government of Nigeria at the national and state levels to advance progress towards the 2O25 World Health Assembly nutrition targets.

From 2021-2026, Alive & Thrive, in collaboration with the State Ministry of Health, State Primary Healthcare Management Board, and the Yobe State Ministry of Budget & Economic Planning (YMoBEP), is supporting the scale up of MIYCN services, the adoption and implementation of national policies and guidelines, and increased investment in the state nutrition plan.

The purpose of this document is to provide stakeholders a snapshot of the situation in Yobe State in 2022. The indicators show that much work needs to be done to achieve the 2025 World Health Assembly nutrition targets (see page 2).

The Alive & Thrive initiative, managed by FHI Solutions, is funded by the Bill & Melinda Gates Foundation, Irish Aid, UNICEF, the World Bank, and other donors. www.aliveandthrive.org

### Strategic program intervention towards ending malnutrition in Yobe state

Yobe State plays a critical role in helping Nigeria achieve progress toward global nutrition targets through successful adoption and implementation of MIYCN policies and programs. From 2021-2026, A&T is supporting the scaling up of MIYCN coverage in Yobe State by working with the State Ministry of Health, State Primary Healthcare Management Board, and the Yobe State Ministry of Budget & Economic Planning (YMoBEP) to specifically strengthen local capacities, recognizing the importance of maternal nutrition for better health and wellbeing outcomes for both women and their children. This commitment will be achieved through the following:

#### **SCALING UP MIYON INTERVENTIONS**

- ▶ Implement a comprehensive package of MIYCN interventions to reduce anaemia, prevent low birth weight, promote, early and exclusive breastfeeding, and reduce wasting, and stunting
- ▶ Engage mass media to improve awareness of MYCN practices among mothers and their family members
- ▶ Work with community-based organizations (CBOs )to engage mothers, influential family members, and religious and traditional leaders for increased demand for MIYCN services
- ▶ Support government and CBOs to lead and sustain the delivery of MIYCN interventions

#### **SYSTEMS STRENGTHENING**

- ▶ Support the state government to align nutrition plans and budgets with national guidelines and the National Multi Sectoral Plan of Action for Food and Nutrition
- ▶ Strengthen states' capacity for monitoring and enforcement of the International Code of Marketing of Breastmilk Substitutes
- ▶ Engage political leaders and champions to advocate for dedicated nutrition financing for MIYCN at the national and state levels

#### **CAPACITY BUILDING**

- ▶ Provide training, mentoring, and coaching to health providers in support of effective interpersonal communication (IPC) on maternal nutrition and IYCF practices
- ▶ Strengthen community-based organizations' capacity and technical skills so they can lead implementation of IPC and community engagement initiatives
- ▶ Work with relevant MDAs and Technical Working Groups to enhance technical skills, guidance, and monitoring of MIYCN outcomes at the national and state levels.
