REQUEST FOR QUOTATION (RFQ)

RFQ #: A&T-IA-COVID19-RFQ1
Issued on: September 16, 2021
Anticipated Period of Performance: September and October 2021
Deadline of Proposal Submission: September 22, 2021 by 3:00 PM (Hanoi, Viet Nam time)

INTRODUCTION & BACKGROUND

Alive & Thrive (A&T) is a global nutrition initiative to save lives, prevent illness, and ensure healthy growth of mothers and children. From 2009 to 2014, A&T demonstrated that rapid improvements in infant and young child feeding (IYCF) are possible in settings as diverse as Ethiopia, Bangladesh, and Viet Nam. In 2014, A&T began working in Burkina Faso, India, Nigeria, and throughout the Southeast Asia region, expanding its scope to include maternal and adolescent nutrition, and using agriculture and social protection programs as delivery mechanisms for maternal, infant, and young child nutrition (MIYCN). Currently, A&T is leveraging its robust network and knowledge base to strengthen systems and build capacity in these and other countries across Africa and Asia, and disseminate innovations, tools, and lessons worldwide. The A&T initiative, managed by FHI Solutions, is currently funded by the Bill & Melinda Gates Foundation, Irish Aid, and other donors.

As of August 25, 2021, Viet Nam’s Ministry of Health confirmed a total of 381,363 cases of COVID-19, 169,921 recoveries, and 9,349 deaths. The latest community transmission cases have been reported from Ho Chi Minh City, Binh Duong, Dong Nai and Ha Noi among other municipalities and provinces. Over 2,300 medical workers have been infected with the novel coronavirus since the pandemic hit the country, and three have lost their lives.

The significant shortage of personal protective equipment in many hospitals has impacted the containment of the virus, safety of frontline health workers and other hospital staff, and maintenance of essential health services. Though supplies are provided by various organisations to hospitals, these do not meet the need for them to cope with this pandemic and provide both life-saving and preventive services for patients including pregnant women, new mothers, and infants.
